

INTEGRATED ASSESSMENT

OUTCOME
C

Programme title	118707 - Occupational Certificate: Software Developer
Assessment name/Module	KM02: Desktop and Professional Software to Communicate and Visualise Information ISA
Module Code	251201-005-00-KM-02
NQF Level	4
Credits	8

STUDENT NAME AND SURNAME:	Jayden Wilson
STUDENT ID NUMBER:	080304 5475 081
SIGNATURE:	
ASSESSMENT DATE:	
ASSESSMENT VENUE	Curro Holdings Private College – Cape Town
ASSESSOR FEEDBACK:	Exceptional work Wilson. I trust you will continue to apply yourself as here, and grow from strength to strength. keep up the excellence.
ASSESSOR'S SIGNATURE & DATE:	 27/03/2026
STUDENT ASSESSMENT FEEDBACK:	The test was very engaging and I understood many of the questions being asked.
STUDENT FEEDBACK DATE:	07/04/2026

INTEGRATED SUMMATIVE ASSESSMENT

Instructions

- Candidates are required to complete the questions in full
- Candidates are required to write legibly
- Assessment duration is 150 minutes
- Student must pass with an aggregate of at least 80% to be declared competent
- Standard exam conduct and rules are to be maintained

General Summative Assessment Rules

1. Candidates are only allowed to use the supplied Integrated Summative Assessment Templates.
2. Candidates are only allowed to use the black pen/colour for their answers.
3. Candidates to ensure all their personal details appear on the front cover page.
4. Candidates to ensure that they read the questions carefully and answer only what has been asked.
5. In case of a written assessment, write clearly and use both sides of the paper but leave the margins free for use of the assessor.
6. No explanation of the Integrated Summative Assessment questions may be asked or given.
7. As soon as their Integrated Summative Assessment answer books have been handed in/ submitted, candidates must leave the assessment room, but candidates will not be allowed to leave the assessment room less than one hour after the stipulated time of commencement of the examination.
8. Candidates may not aid or attempt to aid each other, not obtain, or attempt to obtain aid, nor communicate or attempt to communicate with anyone.
9. No disturbance maybe be created in the assessment room and candidates may not conduct themselves in an improper or unseemly manner.
10. The instructions or directives of the invigilators may not be disregarded.
11. Unless otherwise laid down for an examination, no books, memoranda, notes, maps, photographs or other documents or paper including (unused paper) or other aids pertaining to Integrated Summative Assessment Module. Except for that which is supplied and of admission permits, may be in the examination room: Provided that slide rules, pocket calculators and other aids maybe used in the examination expect in cases where a notice prohibiting their use appears on the question. The use of cell phones is strictly prohibited.
12. If these instructions are contravened candidates expose themselves to disqualification from future Integrated Summative Assessments, and the Assessment Officer can in such a case refuse to give credit for answers.
13. Anyone who commits an act directed at gaining or giving a candidate any unfair advantage is guilty of an offence.

Declaration

I.....Jayden Wilson..... (Learner)
herewith declare that: I am ready for the assessment, that we have reviewed the assessment preparation and plan, I understand the assessment process and I am happy that the assessment will be conducted in a fair manner.

Question 1

1. Describe the primary purpose and an appropriate professional use case for each of the following electronic communication methods: a). Electronic Mail (Email) b). Internet Forum/Discussion Board (IAC0101)	4 Marks
a) Directly sending a message to a person or a group of people, this is a simple communication method, usually used to query or to relay messages. b) A Public post to a large group of people usually on a specific topic or question. Here people can have discussion threads over the topic and provide different kinds of input.	
2. Explain the difference between synchronous and asynchronous digital communication. Give one example of a tool for each type that would be used in a virtual team meeting. (IAC0102)	4 Marks
Synchronous communication travels the same way at the same time. It can only travel one direction. Think of a public announcement. Asynchronous communication is not at the same time so that means it can travel back and forth, think of a discussion post in a teams chat.	
3. A colleague sends you a link to a digital learning platform, but you cannot access it. List two possible reasons why your access might be blocked, related to network or website issues. (IAC0102)	3 Marks
I might not have authorized access to the specific page URL my colleague sent. I could possibly need an account in order to access the platform.	
4. Describe the role of a web browser and the role of a Search Engine in accessing information on the World Wide Web. (IAC0101)	4 Marks

RAS/01/2024/0010
27/03/2026

A web browser is the host of a search engine and all websites. A Search Engine helps you locate and access websites. You can type keywords into a search bar and the search engine will work with the browser in order to bring you relevant information or websites to the keywords you used.

Total Marks - 15

Question 2

1. Identify the primary purpose of each of the following professional software categories: a) Word Processing Software, b) Spreadsheet Software, and c) Presentation Software (IAC0201)	3 Marks
a) To enter information and create documents. b) To analyse and store data. c) To present information or data.	
2. Write out a function to: a) Enter the formula to find the average value of cells C2 through C10. b) Enter the formula to count the number of entries in the range A1:A5 that contain the text "Completed". (IAC0202)	4 Marks
a) =AVERAGE(C2:C10) b) =COUNT(A1:A5;"Completed")	
3. Describe two distinct scenarios in a workplace environment where the use of Jira would be more appropriate than using only email and basic word processing software. (IAC0201)	4 Marks
When you need to assign tasks to people. When you have to keep track of a project and manage it's planning.	
4. Explain why standardising office software versions is crucial for maintaining software compatibility in a professional workplace? (IAC0202)	4 Marks

✓
This ensures that there is a consistency with all the office software versions throughout the workplace. Every persons work on MS Office will be compatible with the next person. Everybody will have the same level of access, there will not be any issues when people access each other's work.

Total Marks - 15

Question 3

1. Identify and briefly describe two methods an end-user can employ to optimise the available storage space on their computer's main drive. (IAC0301)	4 Marks
1. Clear out files they no longer use. 2. Delete large files, duplicates and temporary files. ✓✓	
2. Provide the steps required to locate and manage your computer's Task Manager (Windows) or Activity Monitor (macOS) and identify the application currently consuming the most CPU resources. (IAC0302)	5 Marks
Click on the search bar. Search for "Task Manager". Open Task Manager. Go to resources. Click on CPU. ✓	
3. Explain the optimisation technique of disk defragmentation by addressing the following two sub questions: 3.1) Describe what defragmentation does on a traditional Hard Disk Drive (HDD) and why it improves system performance. (IAC0301) 3 marks 3.2) Briefly explain why performing defragmentation is generally unnecessary and can be harmful to a Solid-State Drive (SSD). (IAC0301) 3 marks	6 Mark

HDD uses defragmentation to bring files that were spread out back into a collective into the HDD. This tidies up the computers storage and makes the computer more efficient. The SSD is already powerful,

Total Marks – 15

Question 4

1. Explain 3 distinct benefits of using Styles over manual formatting (e.g., manually setting font size and colour). (IAC0401)	6 Marks
1. Styles apply automatic font sizes, font types and colour to any text you want. 2. It is convenient and reduces the needed to manually edit text. 3. There are many style options to choose from which can inspire creativity and make your document look better.	
2. Describe the purpose of a Mail Merge operation. (IAC0401)	3 Marks
To create letters, mails for multiple people. You can design layouts for specific people and have the letters be catered to them. It is a letter or mail design system.	
3. List the two main files/components required to successfully execute a Mail Merge. (IAC0401)	2 Marks

RAS/01/2024/0010
27/03/2026

✓ ✓
You need a list of recipients. And you need a document to write the letter on.

4. Explain the purpose of using Track Changes and Comments in a collaborative word processing document. (IAC0402) ✓ ✓ 4 Marks

To keep track of any changes made to a document, it can be used as a tool for feedback. It is a way to review documents. Comments are to explain feedback further.

5. When should a user choose to Accept a change rather than simply viewing it? (IAC0402) ✓ ✓ 2 Marks

When the change is relevant and will positively impact the document.

6. Using a word processing program, create a new document. Demonstrate the following formatting and referencing techniques: 12 Marks

- a) Insert a numbered list of five items.
- b) Insert an automatic Table of Contents based on the use of Heading Styles.
- c) Apply a Section Break to separate the Cover Page from the main document content.

Attach your printouts clearly referenced with the question number, your name and KM 2 ISA as a footer (IAC0402)

12 Marks

RAS/01/2024/0010
27/03/2026

7. Compare and contrast the use of a standard .docx file format versus a non-editable .pdf file format for distributing a final professional report. (IAC0401)	4 Marks
Usually you use a .docx file format for collaboration purposes. To share to people who will review it and suggest changes or for moderation purposes. A .pdf is also shared to people but most of the time this would be the final version of a document. As it is much harder to edit pdf documents whilst being able to edit .docx documents are much easier.	

8. Give one example of a situation where a .docx file (Word document) or a .pdf file would be more suitable than the other. (IAC0402)	2 Marks
---	---------

RAS/01/2024/0010

27/03/2026

A .docx file would be more suitable if you are sharing a letter template that should be printed out, maybe it could be edited. A .pdf file could be a completed script, as it is not a template and is finalized.

9. A professional report requires you to reference Figure 3 multiple times in the body text. 9.1.) Describe the step-by-step process in a word processing program (like Word) to insert an automated cross-reference that links the body text to "Figure 3." (IAC0402) <i>3 marks</i> 9.2.) Explain the primary benefit of using this automated cross-reference field rather than simply typing the text "Figure 3" manually. (IAC0402) <i>2 marks</i>	5 Marks
1) Firstly, type the text that begins the cross-reference >> On the insert tab, select Cross-reference >> In the Reference type box, select the drop down list to pick what you want to link to >> In the insert reference to box select the information you want inserted in the document >> In the For Which box, select the item you want to refer to >> Select Insert as Hyperlink to enable jumping to the referenced item >> Select Insert. 2) Because Figure 3 is referenced multiple times and if the reader perhaps forgot about Figure 3, they can easily navigate to it on the click of a button.	

Total Marks – 40

RAS/01/2024/0010

27/03/2026

Question 5

1. Describe the main function of the Slide Master (or equivalent feature) in presentation software. (IAC0501)	2 Marks
A Slide master controls the look of the entire presentation, you can add images or features that will appear throughout the presentation here, instead of going to each page manually.	

2. Explain why a Slide Master essential tool for maintaining brand consistency across a large presentation. (IAC0501)	3 Marks
Once you add a logo on the main slide of the slide master for example, it will automatically apply to all the slides in the presentation. Therefore creating a consistency throughout the presentation.	

3. Identify and explain the difference between a Transition and an Animation in the context of presentation software. Provide an example of how each should be used effectively to enhance, not distract from, the content. (IAC0501)	6 Marks
A Transition is used as a special effect for the slide itself; it affects the movement of the entire slide. While animations only apply to elements within the slide. For example, a fade transition can be used to smoothly switch between slides. Another example, an animation could be used to bring a graph onto the slide with style, perhaps to grab attention, but it also has to be quick as to not be too distracting.	

4. Demonstration Task: You are asked to present data. Describe the steps and options you would use to embed a video file and a graph/chart (sourced from spreadsheet data) into a single presentation slide (IAC0502)	4 Marks
For the video, you go to the Insert tab, and then on the right, click on the Media section. Click on video and then select your video and insert it. For the graph, select the Insert Tab again, go to the Illustrations section right in the middle of your screen, select Chart. PowerPoint will automatically create a spreadsheet for you to base the chart information onto. You can manually enter data into this spreadsheet, or you can paste data from another spreadsheet here.
